Some notes before you start:
Seirogan = a medicine used to treat diarrhea.
Bufferin = aspirin+antacid, a medicine used to treat pain with less side effects (like nausea).

And now for my awesome drawings.

Accurate depiction of a Seirogan ball.

Totally drew these myself.

USUALLY HAVE SCARY SENTENCES WRITTEN ON THEIR WALLS
You know those that won't fade no matter how much you try to clean them?

WON'T IT BE AWESOME IF BEEP- ROGAN "○露丸" IS WRITTEN BESIDE IT?
Since you're writing that in a toilet, it must be a stomachache!?
Is it your stomach?
